In addition to this, China has also provided the enrichment plant in Cairo.

He said that China would provide nuclear technology to North Korea, Iran, Syria, Pakistan, Egypt, Libya and Yemen.

"First Nuclear Experiment conducted in 1990"

Thomas Reed, who has worked as a weapon designer in Lawrence Livermore National Laboratory of America, has written this book in collaboration with Danny Stillman, the former Director of Technical Intelligence of Los Alamos National Laboratory.

This book has been written with the title 'Nuclear Express: A Political History of the Bomb And its Proliferation,' and in this both the authors have claimed that any country that has made an atomic bomb has either stolen the nuclear secrets of another country or has had cooperation with some other nuclear power.

Thomas Reed said in an interview to US News that in 1990, in the era of Benazir Bhutto, China had conducted the experiment of Pakistan's first nuclear bomb.

Thomas Reed said that he is convinced on the basis of several reasons that China has conducted the experiment of Pakistan's first nuclear bomb.

Those reasons include the design of the bomb and information obtained while talking to the scientists of China.

He further said that this was the reason why in 1998, Pakistan was able to conduct a nuclear experiment just in two weeks and three days in response to India's nuclear experiment.

Thomas Reed also reminded that in 1961 Russia suddenly carried out a nuclear experiment and it took 17 days for America to do the experiment in response to this, although America already had this bomb for awhile.

He further said that the atom bomb, whose experiment was done in 1998 by Pakistan, was developed with extreme care and Pakistani scientists had full confidence in it.

When Thomas Reed was asked if China had provided the nuclear technology to Pakistan, he replied that India was a common enemy of China and Pakistan.

He said that the proof to this also exists in that Dr. Abdul Qadeer Khan used the Chinese design, and, apart from this, the documents retrieved from Libya afterwards also proved this.

To another question as to whether it is usual to carry out nuclear experiments with others, he said that in 1990 America openly conducted a nuclear experiment for Britain in the desert of Nevada.

He said that we may also presume that Israel, too, was given access to the results of this experiment.

Thomas Reed was also asked whether China's nuclear proliferation program is active.

On this, Thomas Reid said that since 1991, China has been providing raw material, instructions, and designs for the nuclear structure situated in Isfahan, a city in Iran.

Besides this, China has also provided an enrichment plant to Iran in Karaj.

He said that China has been providing nuclear technology to Iran, Syria, Pakistan, Egypt, Libya, and Yemen through North Korea.
